

LED T10 (W5W) WHITE 6000K 12V 1W

General Info	Description	T10 (W5W) WHITE 6000K
	Category	LED Retrofit
	/BP	W2,1x9,5D
	Type	T10 or W5W or 194
	MPN	XT-LED-194C
Drawing (all dimensions in mm if not otherwise stated)		
Performance	Input Voltage [V]	9 ~ 16
	Power [W]	1
	Luminous flux Φ [lm]	60 lm +/- 20% (Stable)
	Color [K]	5700 ~ 6500
	LED	CREE
Reliability	Lifetime [hour]	3000
	Working Temperature	-40°C to 85°C
	Vibration resistance	according to IEC 60810-B3
Installation	Application	<ul style="list-style-type: none"> - Interior lighting - Position light (off road only) - License plate (off road only)
	Operation	The T16 LED bulbs are polarity sensitive. If the bulb doesn't turn on, simply rotate the bulb to correct the polarity.
Compliance	ECE R37	70
	Compliant with EMC 2004/108/EC	Yes
	Compliant with Low Voltage Directive 2006/95/EC	Yes
	Compliant to RoHS/REACH	Yes
	Made in	China
